

Held over two weekends, this year's Mahurangi Artist's Studio Trail brings together artists from many disciplines, schools and techniques. This is your chance to see the working areas of local artists, talk to them about their ideas, watch amazing skills in action, maybe buy some special pieces of art or be inspired to do something for yourself.

There are many artists and craftspeople in the region working with paint, glass, fabrics, photography, wood, jewellery and more. Visiting a studio or workspace gives a special insight into the creative process you wouldn't get at a regular gallery or exhibition.

THE TRAIL IS FREE! Simply grab this guide or download one from our website, get out there and support our amazing local artists!
